

Progress Report

Name: Shivaraman T
Course: Signal Processing with MATLAB
Progress: **100%** complete (as of 29 January 2025)

Chapters

1. Introduction **100%**
2. Generating Signals and Common Signal Operations **100%**
3. Estimating Power Spectral Density **100%**
4. Improving the Power Spectral Density Estimate **100%**
5. Characterizing Digital Filters **100%**
6. Designing Digital Filters **100%**
7. Streaming Signal Processing **100%**
8. Conclusion **100%**
